NIZAR AHAMED S

FRONT-END DEVELOPER

<https://snizarahamed.github.io/myportfolio>

PROFESSIONAL SUMMARY

Front-end Developer with experience from October 2022 to the present, specializing in web development languages and frameworks including Angular, Bootstrap, Bulma, JavaScript, TypeScript, and HTML. Highly skilled in responsive development using SCSS/CSS and adept at designing and developing user-friendly, responsive web applications that align with business requirements. Proficient in version control systems such as Git and Tortoise SVN, with a proven track record of delivering high-quality projects on time in an Agile environment. A motivational and positive individual who remains composed in all situations.

Experienced in design tools such as Figma and Canva. Currently expanding skills in back-end development with beginner-level knowledge of C# programming fundamentals and MySQL database.

WORK EXPERIENCE

Front-End Developer

JAN 2024 - PRESENT

Chennai

- Developed front-end architecture that improved scalability and performance of the website.
- Skilled in creating user interfaces, interactive prototypes, and design mockups using Figma.
- Proficient in using Canva for designing visually appealing graphics, social media content, and marketing materials with a focus on simplicity and creativity.

Project Handling:

WhatsApp Order(UK & India) Website, TechOne Website, Vcidex Website, Storyboard Systems

Front-End Developer (Angular, Beginner in C# and Database)

JUN 2023 - DEC 2023

Chennai

- Utilize Angular 15 to build a highly responsive and user-friendly application interface.
- As I am a beginner in C#, I will focus on establishing a connection between the front-end and back-end systems by creating and consuming RESTful APIs..
- Use MySQL to manage and store application data. I will write simple queries and learn how to effectively connect the MySQL database with the C# back end

Project Handling:

NBFC - (employee onboarding, Risk Management), Kitchen Order, CRM and HR
