## EXECUTIVE SUMMARY

Front-End Developer with 3 years of experience in building high-performance, scalable, and responsive Angular applications and websites. Seeking opportunities in the UAE to apply technical expertise, take on challenging projects, and deliver innovative solutions. Consistently improved performance and user satisfaction by leading projects and making technical improvements. I have a strong interest in teaching and mentoring, and also enjoy sharing knowledge and teaching opportunities in technology.

## SKILLS

- **Frontend:** Angular, HTML, CSS, JavaScript, TypeScript, Bootstrap, Bulma
- **Backend & Database:** C#, MySQL
- **Cloud & Tools:** Azure Cloud, Git & GitHub
- **CMS & Design:** Shopify, WordPress, Figma, Canva

## WORK EXPERIENCE

**Front-End Developer** JUL 2024 - SEP 2025

Vcidex Solutions Pvt Ltd - Chennai

- Led a team of 5 developers in managing company websites and e-commerce projects, ensuring timely delivery and high-quality standards.
- Mentored and trained 10+ freshers and interns, improving the project delivery speed by 30% and helping them adapt to real-world workflows.
- Built a fully customized website from scratch without using online templates, resulting in over 50% cost savings.
- Developed the first e-commerce website project at Vcidex using Shopify and WordPress for a client's online launch.
- Hosted WordPress and static websites on Microsoft Azure, ensuring scalability and availability.

**Front-End Developer (Angular, Beginner in C# and Database)** MAY 2023 - JUN 2024

Vcidex Solutions Pvt Ltd - Chennai

- Built responsive and user-friendly web application interfaces using Angular 16+.
- Established front-end to back-end integration by creating and consuming RESTful APIs in C#.
- Designed and managed MySQL databases, writing queries and integrating them with the C# back end.
- Contributed to enterprise modules, including:
  - ERP – HR (employee onboarding, attendance, leave, exit policy) and Sales (product management).
  - Fintech (NBFC) – Risk Monitoring module for compliance and control.
  - Finance – Dashboard and Ledgers modules.

**Front-End Developer - Trainee** OCT 2022 - APR 2023
Vcidex Solutions Pvt Ltd - Chennai

- Completed training in Front-End Development, focusing on Angular, HTML, CSS, and JavaScript, while learning to build and improve web applications.
- Assisted in bug fixing and troubleshooting issues in live projects.
- Collaborated with senior developers to understand project lifecycles, version control (Git), and Agile workflows.
- Participated in client project reviews and documentation to improve requirement understanding.

---

## PROJECT HANDLING

**Business and Enterprise Solutions**

- **NBFC (Non-Banking Financial Company) Platform** – Developed modules for employee onboarding and **risk monitoring** to enhance compliance and streamline operations.
- **ERP & HR Systems** – Designed and implemented features for employee onboarding, attendance management, leave tracking, and exit policy.
- **Finance Systems** – Developed modules for financial dashboards, bank master, and card master to enhance operational tracking**.**

**Web Development Projects**

- Developed and delivered websites across multiple domains, including:
  - VCIDEX company and product websites
  - E-commerce platforms (Shopify & WordPress) for online launches
  - Tours & travel, real estate, and financial services websites
- Integrated third-party APIs in WordPress to connect with ERP systems.
- Built subscription and custom landing pages to improve customer engagement.
- Optimized website performance, ensuring faster load times and improved SEO ranking.
- Implemented responsive designs for seamless experiences on desktop, tablet, and mobile devices.

---
